

...september 25, 1990...

she says she says she says i say
we say
we are not a coven yet –
only four –

she says she has the flu
but will come anyway –
she says she will finish work
and rush to meet the waiting three –
she says she will place her children
into care and meet us there –
i say only
that i will appear –

i will come
to see if three plus one
is more than four –
and if more than four
creates a coven.
