

...november 16, 2003...

**i am a marvelous gestalt  
of cells –  
totally alive –  
totally unique –**

**a magical cohesiveness –  
creating the vitality  
with which i laugh –  
(but no cell is my laugh)  
creating speech  
(but no cell is my speech)  
creating thought  
(but no cell is my thought) –**

**yet cells maintain my breath –  
my tongue – my brain –  
my beingness  
through which i express  
this life –  
this consciousness  
no science can explain.**
