

...december 10, 2008...

i can hardly write it down  
my brain is too bemused to think  
and everything my tongue surrounds  
reduces to a single word  
phenomenal - phenomenal -  
i waken to phenomenal -

it was - it was - it was - it was  
it was too phenomenal -  
too phenomenal to mention  
too phenomenal to watch  
and way too much to gather in  
or reassess or comprehend -

it was - it was - it was - it was  
it was too phenomenal -  
too much too much and way too much  
to understand or taste or crunch  
too phenomenal to touch  
and too phenomenal to clutch -

yet as i waken from the dream  
still dreaming of phenomenal  
the magic shifts into a fade  
till but faintest threads remain  
and all i know is that i breathed  
somewhere inside 'phenomenal'.
