*call me when i am not home
sky to wire telephone –
call me later call me now
call me on the cellular –*

*think of me to hear me now
whispering an inside ear –
it doesn't matter how or where
i can hear you when you call –*

*the me of you and you of i
are linked beyond the physical -
vibrating through molecules
we become the thoughts we share –*

*sky and wire telephone
call me when i am not home –
i am there and you are here
whispering our inside ears.*
