

...june 11, 2012...

god is insect -
god is flower
perfumed pollen
and the thorn -
god is mote
inside the eye
dimensionless
and multiple -

god is moon
and silver stars -
god is sun
of eagle dreams
journeying
the blue white sky
soaring into
condor wings -

god is iceberg
glacier -
god is phoenix
molten core
birthing visions
rainbow-ing
the powers
of imagining -

god is sparrow
in our hands
god is music
sweeping trees
with feather perfect
prophecies
seeding all our
memories.
