

*...may 1, 2019...*

*it is so curious –  
yellow –  
earth is diving spring –*

*then slipping sideways  
forest green  
to breathe a mossy lawn –*

*exploding upwards –  
cobalt  
singing clouds above –*

*where skies are dancing fires  
oranges  
reds and golds –*

*incense mists of  
purple  
draw the evening in*

*to culminate in  
indigos  
that cloak a setting sun.*
