***thank you for the dinner out  
and the forever of an hour –  
for the awesomeness of chat  
and the everything we are –***

***we are the magic of the world  
growing more and more into  
friends of ever – each of us  
more than we ever could have believed –***

***thank you thank you friend of ever  
for this day of memories –  
memories of time and space  
though time and space do not exist.***
