

...june 11, 2021...

**every – any – thing we feel
recreates us in each now
as we craft in space and time
each living tale that we are –**

**history is his story –
my story is mystery
with words the curiosity
shaping who we've yet to be –**

**words and thoughts to shape and weave
actions born inside beliefs
reverberating – heart and soul
refractions of the world soul.**
