

...march 25, 2021...

***let's have fun today
pretending that the rain
will turn its face away
to scatter us with sun –***

***let's have fun today
with multiplicity
inviting all our hidden selves
into this budding day –***

***let's have fun today
pretending that clock
is playing backwards time
and dancing into trees –***

***let's have fun today
with fairies – birds and butterflies
winding the forest trails
that call us to explore.***
