

...march 9, 2021...

**what can one person do
when everyone is trapped in distances
and faceless masks
while the elderly and handicapped
are abandoned
to honour selfishness
and government control?**

**what can one person do
while all the world media
is promoting hate and fear
while brainwashing watchers
to visions of despair?**

**what can one person do
in a world where no one
wants to be aware?**

**turn the media off – knowing
everyone will always believe
exactly what they want to believe
and many love their fear –
then send love to all
and turn towards the flowers budding spring
to walk among the trees
and among the birds and bees
that do not judge.**
