

...april 21, 2022...

***i have a dream –
that squirrels are more important
than cutting down the trees
to build apartment blocks –***

***i have a dream
that birds are more important
than building wifi towers
with killing frequencies –***

***i have a dream –
that people can exist
without the internet
to prove they are alive –***

***i have a dream
that we can visit stars
to become the teachers
the stars have been to us.***
