

*...april 15, 2022...*

*no longer is the moon our master  
or a deity –  
hollowed out and cratered  
to a trampled asteroid –*

*gibbons full or crescent dark  
mathematically exact –  
the perfect sizing for eclipse  
between the sun and earth –*

*silvered large and slivered small  
now lost to innocence –  
pausing till lunacy dissolves  
back into nothingness.*
