**slowly and insidiously
half-baked lies parade as truth
while anyone who questions is
ridiculed and ostracized –**

**health care offers poisons
as a remedy for fear
noting if you do not die
then they're your savior –**

**universities become
hallowed realms of management
teaching schools of belief
to graduating clones –**

**the media is lucifer
creating hell on earth
by spreading governmental doom
in travesties of truth –**

**we've lost the roar of ocean waves
and cannot hear the trees
while bowing to insanities
that feed on dollar bills.**
