**the son of ra is reason  
who put the know in knowledge  
but had no hand in handling  
the stories we've been fed –**

**the omen holds the moment  
awakening the mind  
as people in their believing  
conceive our world in time –**

**gradually we're learning –  
all and every one –  
the world is illusion  
and we're its living dream.**
